Some doors should have never been opened...
I always felt the friction and every night I saw the spark
In part it's where the paranoia starts
First with intolerance, pathetic ignorance, indifferent
fucking pigs who watched in silence as it all came apart
What do you care now
Now that our choices are dwindling
What do you care how many wonders lay dead at our
feet
Regarded with suspicion when nothing else was ever
earned
We've turned the tables on ourselves
Try to advance but never learn
Promises never met, a biased temperament
Knowledge disintegrates when it all comes crashing
down
Devolving right from the start
Let go of my hand
You'll never stop this
What do you care now
Now that our choices are dwindling
What do you care how many wonders lay dead at our
feet
Let go of my hand
So I can violate your trust
Let go of my hand
You'll never stop this...
Devolving right from the start
Let go of my hand
You'll never stop this
Give me the shapes to create life and I'll make you a
gun
With outstretched arms I'll cut the light from your eyes
Hate me, forgive me
Your god will never save me
No point in waiting
Faith seems so useless lately
A world evolved can't find it's own way
Through oblivion's gates (let go of my hand)
Devolving right from the start
Let go of my hand

You'll never stop this
Devolving right from the start
Let go of my hand
You'll never stop yourselves
