Hate you and your life  
It sucks anyways  
We can't stand  
You're in denial  
Ignorance  
The shit you give is so worthless to us  
Go back to the rest of your ignorant herd  
Courtesy  
There is no more  
Rudeness  
People really suck  
You're crushed  
In this life you know it  
There's no place to hide  
Pummelled with punishment  
Taking away all your pride  
Sick of people  
Always being suck  
Hatred  
For you and your kind  
You suck  
We-are-through  
How dare you stab us in our backs  
Get away from us, you're life's mistake  
You suck, you lie  
Your kind, will die  
Strengthen, over your world  
You suck, you'll always know it
