"Punishing Force"

Visit "[Punishing Force](#)" on MotoLyrics.com

I am sick and tired of people
Talking shit behind my back again
Through the years I've learned to trust no one
Fighting back until the bitter end

Tyranny - feeding me - enemies
Will face the wrath of my insane revenge
Crushing you - Death is soon
You will never mistreat me again

I can't believe you thought you would escape
I see the fear tearing through your brain
Your wishing you were far away from me

All the lies - time to die
Erasing you - Lots of blood

No more talking shit - Because you're fucking dead
No more polluting life - Never again your lies
