This is the moment of truth - the one we've been  
waiting for

No more bullshit - no more politics

Retaliation - my vengeance has come for you

Punishment - you never thought you'd see

Punishment - soon you will believe

Life rewinding in your head

Remembering all you've done and said

Look into my eyes - you will realize motherfucker

I want to kill you everyday

Ruthless - I could take a life today

The chemicals in my brain say your ripe to slay

My regulation - vindication - retaliation

My frustration - total war

Words - your words fall dead at my feet

Reason can no longer reach me

My fist - your face - the past erased

Crushing you now - feels good somehow

Numb with pride - on fire inside

No enemy - no friend

I bring you to your end

Retaliation
