This life is
A painful test
You know it
We work our lives through
All of this for what? Nothing!
What is life's meaning
Through the test you will find out
The pain of life
Agonizing
Try hard to do what's right
Getting nowhere
Stress from life's test
Taught to sustain
Not sure of life
The test of sanity
One day things seem to be going right
Wrong-no
Suddenly they are not
Life forcing us on our knees
This test of life
Is real suck
My mind is blown by every day
The things that we see
The hate that we sustain
Now we face your test
In every day suck life
Fearing what comes next
Using our minds
Trying to solve the problem
Overwhelmed with hate
Don't give in to life's harsh pain
This life is too complex
