

Odious Mortem **"Vile Progeny"**

Forced into existence no regard for a will of the born
A selfish act of mortality emulation of god through
creation of life
And onÂ...
We continue this trend without questioning why
Eternally bred
An act of power disillusioned divine
Amongst this inescapable cycle of life the future is
constructed from broken reason
Through empty wisdom our world is created
A frenzy of unraveled insanity
Detached from earth we breed its demise

True destiny lies in death
And onÂ...
We continue this trend without questioning why
Eternally bred
An act of power disillusioned divine
Greed
Progeny of lucre and filth
Descendant of maggots reproduce and consume
Trapped in a void of disgust concepting an answer as
to why
Progeny foresees will for divine eternity
Replicas of a vile existence.
