Step into the witness box and proudly make a stand
Spreading the confusion all across the savage land
Revolution constitution confess to the crime
Keep my pride pay the price dead men row not time

My dying day
I'll slowly fade away
My dying day

The pain will go away

Sitting waiting knowing that the time will come but
when
Slowly going insane dwelling in this prison cell
May the jury be forgiven guilty lost and found
Hear the prayer to the heavens walking chamber bound
