Just another day to live  
And another night to be free  
There are a lot of things to see  
There's a way to fly and follow dreams

In my heart you're still alive  
I can hear your distant voice  
I will keep a secret deep inside

Angel cries  
I see the stars are falling  
Down from heaven  
Angels cries  
I will take it and  
I'll paint the sky

Out of the night

Don't fly away from me

Don't fly away from me  
There's a time to run away  
There's a secret place for you and me

In my heart you're still alive  
I can hear your distant voice  
I will keep a secret deep inside

Angel cries  
I see the stars are falling  
Down from heaven  
Angels cries  
I will take it and  
I'll paint the sky

I will take it and  
I'll paint the sky

Out of the night
