Live & die, we are hung by the wings of oppression, our  
saints fail us fast  
Dress for times of disaster as we take our last breath  
Look of life passing by us, we say our last good-byes,  
Crush my life in a moment, kiss your life goodbye  
Death will come for us before we kill ourselves, living  
this life of passion  
Waiting for death as everything is taken  
I will be there waiting, our foolish pleads so quiet &  
everything I love is gone  
You will burn until the end takes your precious descent  
into the crypt  
Take all your punishment & try to love it  
Time won't mend, you will destroy yourself  
Black & white surroundings vast, the times unwinding  
the patience  
Will reveal the pictures of death itself. I will bless  
myself with reason  
I can't mend myself, hope for the best path of reason  
as love kills itself  
Destroy you fucking love, as I plead for you to leave me  
innocent trust myself with  
Thought surrounded punishment, tears of will pouring  
into my hands  
Trap myself in life, the Roses rest in bliss, everyone  
that I love is fucking dead  
Dress of murders of your past life, dress for you, dress  
in death,  
The ones we love, we'll lose their faces, comfort us  
The victims falling are the ones we love, dress for you  
as I'm sure you will leave  
Part my lies only for you, only for you as I'm safe from  
the ashes  
Safe from the tears that are worn on our precious  
things  
So dear, while I'm watching the faces of vanity with  
death of today  
Nothing so precious in this instance can look just as  
lovely, take this love from me  
Take it away, everything lovely is taken away, kill my  
life, ashes away, kill my soul  
Kill everything... Nothing sacred in this world, can't be

taken away as you force through life  
Love is a dead display, I am left alone, is my heart still  
beating?  
Nothing left for you, nothing sacred, tear my world  
apart, serenade me  
Life's only truth taken from you... as tears taste of  
death's sweet problems left to me unsaid  
Live for this, I strive with everything  
SECRET love was left unsaid, I'm here alone to warm  
you  
We live by our passion, we live by our rules now, the  
only thing left for us is death  
As I pled for you to leave me innocent, trust myself with  
thought surrounded punishment  
Tears of will pouring into my hands,  
Trap myself in life, the Roses rest in bliss, everyone  
that I love is fucking dead
