Seven days and seven nights  
Still waiting by the phone  
Like holy water turned to wine  
Can we make it real this time?  
I wanted to badly  
To see it through the window  
But you refused to understand

Chorus  
All my lovin'  
All for nothing  
Gave my heart, I got

Your crown of thorns  
Kept believin'  
Without reason  
Gave my heart and go  
Your crown of thorns

Suddenly it dawned on me  
That love like this should die  
That hold on me, became misery  
A pain I can't deny

Chorus
