Tonight we take revenge  
Storming trough it all  
Tonight we hunt you down  
and let it all out!

Tonight no-one shall survive  
With swords we come for your life  
We'll never forgive - We'll never forget  
Your dead eyes, sick shining no regret

You  
Deny your past  
Deny your guilt  
Deny the halls of holocaust  
Deny your past  
Deny your guilt  
Deny all things that you have done  
Just try to deny your own fucking death!

Tonight nothing shall survive  
of your weak and twisted lie  
Tonight we will murder and burn  
your made-up master race-shit  
Tonight no-one shall be saved  
With swords - We await  
We'll never forgive - We'll never forget  
Your dead eyes, sick shining filled with hate

Tonight we take revenge  
Storming trough it all  
Tonight we hunt you down  
and let it all out!
