This is your way out of space  
A fool to fall for that line  
For those who hoped  
You'd be everything  
(Be everything)

Your quiet eyes won't sleep tonight  
This is a message to the weak  
And now we know,  
Just who you are  
Yeah,  
We've all caught on

And now you're on  
And now you're on

Your words run so well together  
You have lost your touch,  
In those you cannot trust  
This is your way out of here  
Girl, you need to listen up  
Before I let you go

Attention!  
We have stolen the hearts  
Of the machines

Attention!  
We have stolen the hearts

And you find yourself  
So confined by those who point at you  
Tear down these weights  
Give it all  
Just let this go

For all the times you just stood there and stared  
Into my stained glass eyes  
And now and now we've come to understand what  
makes a man a man.

Your words run so well together

You have lost your touch,  
In those you cannot trust  
This is your way out of here  
Girl, you need to listen up  
Before I let you go

Girl, you need to listen up  
Before I let you go
