"Dreaming In The Veins Of Kingu"

In the balance of unbalance
Cool waves of oppression
Soothing the chaos
That has left me hungry for Death

Deep satanic madness
Driven beyond every point
Driven in flesh and mind
Sanctified in tortured

Blissful naked clarity
Shameless pride
Blessed blackest purity
Life aside
Chaos!

In the balance of unbalance
Swallow this heart O Lord
Remove all that is human
Put aside all that is weak

Fo the beast is hungry O Lord
And the curse is present O Lord
Following my footsteps
It will not rest until I die

In the balance of unbalance
I turn to the forbidden
And pray to the Chaos beyond
The dot within the circle undone

Where the earth is yet formless and void
And life unthinkable
Where the waters are sterile and black
And the Berashith gone
