I don't want you to be worried now and
I don't want you to lose sleep.
I don't want you to be concerned about me,
So please don't be.
I don't want you to check up on me,
Because I don't want you to see
Everything that I've become.
It makes me seem so weak.

I don't want you to feel overwhelmed.
It's so unnecessary.
Take all the time that you need for yourself
To see the things I see.
I don't want you to write me letters.
I'm so tired I can't read.
I don't want you to give me advice.
Just close your eyes and listen to me;

I just want you to know that I think about you all the
time.
You're always on my mind.
I would never let anyone hurt you. With me by your
side,
You're safe as long as I'm alive.
