You're the kind of girl that never puts on the brakes
You're the kind of girl with those amphetamine shakes
Oh, baby!

And every time I see you, you've been up for four days
You say "life's so much easier when you see it in a
haze."
Oh, baby!

I can't help but think
If we tried to lead another life
We wouldn't survive
Or would we?

????
We'd just be doing it in the house instead of my pull-
out couch
Oh, baby!
???

We're in debt but we don't own a fucking thing
I spent your money on my booze, you spent my money
on speed
Oh, baby!
We got it figured out

I can't help but think
If we tried to lead another life
We wouldn't survive
Or would we die?

When you close your eyes, can you see the worst stuff?
How kids like us, yeah we bleed out?
But baby I don't mind with you by my side
