I don't give a fuck about anything.
When I think about the future all I see is it bringing me
pain, misery, and poverty.
I've been trying for 15 years to smile and take shit
But now it's so clear that it's all downhill from here.

I wish I could turn back the clock 8 years,
And have thought twice about the person staring back
at me in the mirror.

I don't give a fuck about anything.
When I think about the future all I see is it bringing me
pain, misery, and poverty.
I've been trying for 15 years to smile and take shit
But now it's so clear that it's all downhill from here.

I wish I could turn back the clock five years.
I never would have thought that you'd be standing right
here.
Life's got the best of me and I just want to drop to my
knees.
Scream and punch the concrete until my hands bleed.
It's all a fucking joke to me.
I wake up and work, and get fucked up and sleep,
And then wake up and work, and get fucked up all over
again.

Life's got the best of me and I just want to drop to my
knees.
Scream and punch the concrete until my hands bleed.
It's all a fucking joke to me.
I wake up and work, and get fucked up and sleep,
And then wake up and work, and get fucked up all over
again.
