Why did you take it all away?

Why did you have nothing to say?

If you don't go stay I won't go through another day

Why did you take it all away?

Why did you have nothing to say?

If you don't go stay I won't go through another day

Why did you take it all away?

Why did you have nothing to say?

If you don't go stay I won't go through another day

Why did you take it all away?

Why did you have nothing to say?

If you don't go stay I won't go through another day

You're breaking my heart...

You promised that you won't leave me

When I need you

But you just kept on running away

You promised that you'll be there

If I'm with you

But you were not there anyway

So I try, and I try to make it work it by your side

And I know where you had to go

It's the same with my name

You're breaking my heart...

Why did you leave?

Why don't you need me?

Why don't you making all the promises you gave me

You're breaking my heart...

3X

Why did you take it all away?

Why did you have nothing to say?

If you don't go stay I won't go through another day

You're breaking my heart

Why did you leave?

Why don't you need me?

Why don't you making all the promises you gave me

You're breaking my heart...

4X

Why did you take it all away?

Why did you have nothing to say?

If you don't go stay I won't go through another day

You're breaking my heart
