I lose my security  
When your not around  
No one can trust but to shelter me  
All the walls come falling down

Sound of your voice  
Your not alone  
Give me the strength I need  
To bring me home  
To bring me home

Above the clouds spin back and saw  
Your fear cant fence me yeah  
When I scared I lock the door  
Keep the darkness out

till the sun shines again

Sound of your voice  
Your not alone  
Give me the strength I need  
To bring me home  
To bring me home

Whenever you near I lose my fear  
I know with you I know that I cant go wrong  
The darkness keeps waiting  
Finally found a better way  
You shine the light to guide me safely home
