Ja cansei de estar sozinha
Sei que um dia eu vou ter
Teu carinho
Teu carinho

When the moon lights
Im outta my mind
and your kisses
are sweeter than wine
When the skyline
Stretches till dawn
I can hold you
Endless in time, in time

(lets) Get away
In the middle of nowhere
I just need for you to be there
Million people and i dont care
Cause all of the light i share
It is just for you
in the middle of nowhere
I just need for you
to be there
Million people and i dont care
Million stars just for you
