Straight to the open sea
Right where my eyes can see
I'm diving
To the memories you gave me
And when the night time comes
There is no place around this earth
That could make me feel like i do

I got my heart so broken here
Went through the happiness and fears
It only takes one ocean clear
I could never leave
Into the life of bitter sweet
Into the magic of the streets
I could never leave
I could never leave
I could never leave

Tel Aviv
