Things got better when you left

Your friends always say that

But I think you better check

Your leaving member contract

You don't get to say

You don't get to say goodbye

And I don't want to be the one

But I could try

Things got better when you left

I hang my hat upon it

People say I'm somewhere else

What's so sad about it?

Even though it means

Even though it means goodbye

And I don't want to be the one

I don't want to be the one here

I don't want to be the one

But I could try

You're not talking

And I'm not talking

The dog's not talking

And no one is talking at all
When you're home
No bark in the street
No bark in the yard
No bark in the house
Next bark is a sound of my own
War for peace
Things got better when you left
So tell your friends about it
I'll just sing it to myself
'Till I can live without it
Even though it means
Even though it means goodbye
And I don't want to be the one
I don't want to be the one here
I don't want to be the one
But I could try
