The money's all gone

Get it straight

The money's all gone again

Way to hesitate

Can't survive alone

Heaven sent us to play your favorites

Fill your family with revelations

And come back home

Too close for comfort

Too close for comfort

Too close for comfort

Too close for comfort

The enemy's at the gate

The enemy's at the gate

And slowly we come undone

And slowly we come undone

The warriors are all gone

The warriors are all gone

And slowly we come undone

And slowly we come undone
