"My Charcoal Heart"

Visit "[My Charcoal Heart](#)" on MotoLyrics.com

My heart is in pain
The feelings for you won't be the same

My heart a diamond it won't be
Black like coal, all you will see
The pain from feelings of disgust
What once was love is blown away like dust

My heart black as night
Tears like tar from my eyes
Venom pumping through my veins
When I speak my words are like flames

My heart a diamond it won't be
Black like coal, all you will see
The pain from feelings of disgust
What once was love is blown away like dust

All because of the way I've been treated
I have been deceived
You cheated on me
From the start

Now I've got a charcoal heart
My heart, black as night
Tears like tar from my eyes
The result of your goddamn lies
