You think you're really cool  
Can you come out and play?  
We know you're beautiful  
Just put us on the airwaves  
You think it's wrong  
When you don't know what you want

Every link in the chain  
(Whoa oh oh)  
Is more shady than a shadow on a sunny day  
Every link in the chain  
(Whoa oh oh)  
The industry where nothing lasts forever

You're looking mighty high  
Too high to rock with me  
Too high and mighty  
When you aren't even anything  
But you think you are  
And now I know what I want

Every link in the chain  
Whoa oh oh  
Is more shady than a shadow on a sunny day  
Every link in the chain  
Whoa oh oh  
Is more shady than a shadow on a sunny day

So you are where you wanna be  
You don't listen to anyone  
You say you are where you wanna be  
But you don't listen to anyone  
So you are where you wanna be  
You don't listen to anyone  
You say you are where you wanna be  
And you never listen to anyone
