So sad you're losing things
Things you wished you'd never had
We grow stronger with resistance in our way

I don't wanna scream too much it'll make me angry
I'm having a great time living my dream
I'm living much more safely
When I shake the bad things off my tree
The only thing that drives my life
Is my mentality

All these dirty girls are my friends
Here's a cheers to the scandalousness

The end turned my head upside down again
It's a fucked up kind of upside down my friend
But a little change will help us in the end
Here we go

I'm glad it's over
Then again it hasn't even begun
I'm glad it's over
Then again it hasn't even begun

Living much more safely
Shake the bad things off your tree
The only thing that drives your life
Is your mentality
