You used to be my downfall. You used to be my torment. But oh do I have a secret for you I know how you get me. Oh sweet Jesus I refuse to just be right. This is war. You're driven by the puppeteer. You're counterpart the same. You jezebel you jezebel I will not die I will not be your victim anymore. You hear me jezebel? (2x)

Oh stay away from me, you jezebel. My God is all I need, you jezebel. So pack your bags and take your things. And close the door behind you. And just remember what I say. Your ways are far behind me I will destroy you I must destroy.

(2x)

I will destroy you I must destroy. If you aren't with me I must deploy. My soul is marked with blood. Pouring from the hands of love. can't stop what I deploy. Don't hate destroy.
