Shh... I've got a secret I want you to know
I've got this feeling that I can't let go
It's deep inside my body
Ya know I'm so excited
But I'll keep it ? keep it a secret

Shh... I've got a secret that you'll never guess
A hidden crush that I'm scared to confess
My heart can't beat much stronger
I don't know how much longer
I can keep it ? keep it a secret

When you turn and look my way
I'm thinkin' this could be the day
Every time we say goodnight
I wish you were layin' by my side
Let me whisper in your ear
Make these secrets disappear
Keep it a secret a secret that we'll never say

Shh... I've got a secret I'm dying to tell
I look at you and I'm caught in a spell
Your eyes are mesmerizing
Your thighs are hypnotizing
It's no secret ? just believe it
Shh... I've got a secret, I gotta come clean
You look so cute in your designer jeans
The way I see you groovin'
It gets my body movin'
Do you feel it ? 'cause I feel it

When you turn and look my way
I'm thinkin' this could be the day
Every time we say goodnight
I wish you were layin' by my side
Let me whisper in your ear
Make these secrets disappear
Keep it a secret a secret that we'll never say

Now before we go, can I have this dance?
What part of "yes" don't you understand?

When you turn and look my way
(Kiss me fool, I'm not okay)
Every time we say goodnight
I wish you were layin' by my side
Let me whisper in your ear
Make these secrets disappear
Keep it a secret a secret that we'll never say

Shh... I've got a secret I want you to know
Don't need a plan we'll make it up as we go
The secrets getting harder
Can't keep it any longer
Let's not keep it ? keep it a secret
