1) Ten thousand harpsichords..
Blowin' in the wind..
Multicolored magic mist..
Swirling in your hand..

(Chorus):But you don't know where your mind has
gone...
But you'll find out when you come back...
You see your body's turned to straw...

2) Your friend's they're all making..
Magic mystery..
They say they've had visions..
Of many sinkin' ships..

(Chorus)1x
(Psychedelic Instrumental Interlude)

3)Pictures in your head girl..
Tell you where it's at..
The futures lookin' dark for you..
I tell you it's turning black..

(Chorus)1x

(Psychedelic backwards effects..fade out)
