They've poisoned and clear-felled and strip-mined this
earth
Made a cess pit of the paradise that was ours by birth
They've raped and they've burned and they've
plundered our world
Our banner of resistance will now be unfurled
We're nailing our colours right up to the mast
The sands of time are running out fast
To stop the nutters destroying our home
Kidnapped from our children from whom it's on loan
Enough is enough is enough of their greed
Mass eco-defence is what the earth needs
Terra-ist action all over the land
To stop the lunacy the rich have got planned
E.L.F. strike in the dead of night
See the bulldozers are burning bright
Construction area totally trashed
Earth-rape machinery utterly smashed
Some might say that we're too "extreme"
But all we want is air and water that's clean
And a green earth not a desert is what we need
Don't let them sacrifice it on their altar of greed
Rise up and conquer your fear
They can be stopped like Jose-Maria
Our world a toxic slag-heap they will make
So take whatever action you feel it's right to take
It's up to you it's up to me to make a stand
Our generation holds it's future in it's hands
Time to fight back let them do their worst
Green anarchy in action - put the earth first!
