Are we to go back to the days of victoria  
Will we so easily surrender the gains we made so far  
Back to an age of repression hypocrazy and lies  
Forced into the back streets as another freedom dies  
No! no return to the back streets  
Christian fundamentalist right wing nutter  
Claim to respect life soon show their true colours  
Abortion clinic doctor gunned down in the street  
Is this the sanctity of life they claimed to belief  
No! no return to the back streets  
Thousands more will die back street abortion  
The bloody human consequences if we do not resist  
The bombings and the terror well what do you think  
Your future as a breeding sow chained to the kitchen  
sink  
Fight or loose the right to choose
