"Rock The Rain Down"

The April sky is dark, with moody clouds of gray
I've got to pick up my guitar because it's high-time to
play
I know this rain is gonna' help me rock my blues away!

See, my lady said, "good-bye," and my heart wears a
frown
I don't want to let the people know that I feel like a
clown,
So turn my amplifier up, it's time to rock this pain
Down!

(Chorus) I said, Let's Rock the Rain Down!
Let's ROCK the rain down!
ROCK the Rain down!
ROCK it DOWN! (repeat w/variation)

Who knows why Love has to hurt, and cause me all this
pain,
My heart continues to be broken time and time and
time again!
I know the sky is crying when it pours down the rain.

And if I play the Blues, no doubt, my tears will fall!
My heart is tired of weeping, and I've got to stand tall!
Still, I've got to rock this pain down, come-on & ROCK
with me Ya'll!

(Repeat Chorus)
