Even if we're in separate far off places our thoughts
will be one
Because my future will forever have you as a part of it
You, saying nothing and still loving me in my moments
of bravado
Along with my moments of defiance; I never want to
part from you, for all time
Someday, we will go to that sky where the stars are
waiting
Until that time comes, I want to be together with you
Thank you; I'll say it again and again
Ah, tighter, I want to embrace you tighter against my
chest
Even if you are full of sorrow, this is all that I'm able to
do
I want to protect you even if I lose everything
I, thinking lovingly of you in your moments of being a
crybaby
Along with your moments of loneliness; I always want
to be next to you, for all time
That sky becomes further away; Time is flowing and
Even if things fade away completely and tears aren't
she'd
Unforgettable memories will go on
Ah, tighter, I want to embrace you tighter; Over yonder
Even if it's gloomy and hazy and hopelessness is
waiting there
I want to protect you even if I lose everything
When I become uneasy and when I lose sight of the
way
I remember your warmth
I will love only you until the end of all time
Someday, we will go to that sky where the stars are
waiting
Until that time comes, I want to be together with you
Thank you; I'll say it again and again
Ah, tighter, I want to embrace you tighter against my
chest
Even if you are full of sorrow, this is all that I'm able to
do
I want to protect you even if I lose everything
