So you were born in an electrical storm  
Took a bite out the sun  
Saw your future in a machine built for two  
Now your rays make me kind of go crazy,  
Shock and awe and amaze me  
Just a ticker tape parade and me

But something was wrong  
Till you tap danced on the air in the night  
Screaming at the top of your lungs, you said

Come on, come on  
Do what you want  
What could go wrong?  
Oh come on, come on, come on, come on,  
Do what you want  
Oh come on, come on  
What could go wrong? Do do do do what you want  
Come on

Me, I was raised amid the trickle down days  
I woke up numb in the haze  
And saw my future in a machine built for two  
But the light gave me some kind of fright,  
How did wrong get so right  
And lead me stumbling through the dark of night?

Oh, something was wrong,  
But you tap danced on the air in the night  
Screaming at the top of your lungs, you said

Come on, come on  
Do what you want  
What could go wrong?  
Oh come on, come on, come on, come on,  
Do what you want  
Oh come on, come on  
What could go wrong? Do do do do what you want,  
yeah!  
Come on  
D-d-d-do what you want!

D-d-d-do what you want!

Hey!

C'mon, c'mon, c'mon, c'mon,  
C'mon, c'mon, c'mon, c'mon,  
C'mon, c'mon, c'mon, c'mon,  
C'mon, c'mon, c'mon, c'mon...

D-d-d-do what you want, yeah!  
D-d-d-do what you want, yeah!  
Oh, do what you want!  
Whoo, do what you want!  
Do what you want!  
Do! Do what you want!  
Do! Do what you want!  
Do! Do what you want!  
D-d-do what you want!  
C'mon!  
C'mon, c'mon, c'mon!  
D-d-d-d-d-d-d-do what you want!

Do! D-do!  
Yeah!
