Super automatic pilot motor running down circles in the
parking lot
Self-sustaining system bit her in the neck and quick
and kissed her and took all she got
Did you come here to dance?
What's in your glass?
Do you feel better?

Let it rain, Let it pour
Let it rain, Let it pour
Hallelujah, Hallelujah
Let it rain, Let it pour

Cruise-control distressed, her kind of cursed and kind
of blessed her, engine running on the fume
Vision blue and blurry, falling angels in a flurry,
spinning thru the empty room
Did you come here to dance?
What's in your glass?
Do you feel better now?

Let it rain, Let it pour
Let it rain, Let it pour
Hallelujah, Hallelujah
Let it rain, Let it pour

Super automatic pilot motor running down circles in the
parking lot
Self-sustaining system bit her in the neck and quick
and kissed her and took all she got

Let it rain (Hallelujah), Let it pour
Let it rain (Hallelujah), Let it pour
Pour (Hallelujah)
Pour (Hallelujah)
Pour
