ARCTIC SUMMER

Verse 1

In the Land of Northern Lights Beauty mesmerized our hearts
For so long weâ€™d been waiting for her warmth, care and light
Finally the Goddess Sun blessed us with her love and grace
Only to stay with us a while and disappear without a trace

Chorus:

Bring me eternal love, eternal spring
Give me eternal light, everlasting
Warm me up inside with the power of your love
Let me feel your true love, not Arctic Summer

Verse 2

Like rays of sunshine we danced in the splendor of the diamond ice
Our Garden of Love blossomed and faded away too fast
Time was so cruel to end our arctic summer; it didnâ€™t lastâ€¦
Like the Northern sun you came by and escaped from my life (â€¦just like thatâ€¦without good-bye)

Bridge:

Why did we choose such a far-a-way land?
The land of ice and snowâ€¦
The place of silver stars and moon glow
Why did we fall in love with the Northern Lights like that?
