You got me in the danger zone  
You're all I breathe, you're all I'm livin' on  
Your body is my oxygen  
I don't know where I end and you begin

When the mercury is rising  
To a thousand plus degrees  
All the planets are aligning  
Into eternity

I can't get enough  
Of the heat you generate  
You're a red hot rush  
Make the earth beneath me shake  
Till we break on through to the other side  
Where the waters part and the stars collide

I got to have another shock  
Of soul to soul mate electricity

So hit me like a tidal wave  
With everything you've got that gets to me

Cause my temperature is rising  
And I just can't hold it in  
All the passion that I'm feeling  
When we dancin' skin on skin

I can't get enough  
Of the heat you generate  
You're a red hot rush  
Make the earth beneath me shake  
Till we break on through to the other side  
Where the waters part and the stars collide

I'll admit at first it's frightening  
To lose all self-control  
But I can't put out this fire  
Raging in my soul (raging in my soul)

I can't get enough

Of the heat you generate  
You're a red hot rush  
Make the earth beneath me shake

I can't get enough  
Of the heat you generate  
You're a red hot rush  
Make the earth beneath me shake  
Till we break on through to the other side  
Where the waters part and the stars collide
