It's a mystery what I did wrong  
I gave you my love, thought we were strong  
But you never gave it  
You never gave it back to me

I didn't walk away, I tried to work it out  
But you can't repair love, when love is in doubt  
I couldn't understand  
How we had come to this

(From being unsure) About you  
(To feeling insecure) Around you  
I took the blame and every  
Part of me you changed, yeah

(You said you didn't care) About me  
(That love was never there) Ooh, to find me  
Why you calling me up  
Just to hear me say again

We could have been together for life  
Husband and wife  
Every day and night  
If you gave me your love  
Your love

You could've had all that you need  
A little family  
Together but free  
If you gave me your love  
Your love

When you need the love  
There's only one cost  
Try so hard 'till your identity's lost  
Don't wanna feel, don't wanna feel that way again

Why you closed your heart  
I guess I'll never know  
Were you too afraid to let your feelings show  
Ooh, it's a crime when loving is denied

(You said you didn't care) About me  
(That love was never there) Ooh, to find me  
So why you calling me up  
Just to hear me say again  
And again and again

We could have been together for life  
Husband and wife  
Every day and night  
If you gave me your love  
Your love

You could've had all that you need  
A little family  
Together but free  
If you gave me your love  
Your love

I'm tired of being the only one in love  
Sometimes to give your heart  
And soul is not enough  
Just not enough...

Chorus repeat
