I don't regret any choices  
That I've made  
And what I've become  
When you follow your passion  
You can hear  
It's calling to you

Then you start on the journey  
Let the story unfold

I breathe in, I breathe out  
Through the changes in life  
All around me so different  
But I don't change inside  
I breathe in, I breathe out  
And I always get by  
I know everything changes  
But I don't change inside

Looking over my shoulder  
Looking back  
To where I come from  
In the mirror I'm older  
But deep inside  
I'm still the same child

Looking back at my journey  
I don't forget who I am

I breathe in, I breathe out  
Through the changes in life  
All around me so different  
But I don't change inside  
I breathe in, I breathe out  
And I always get by  
I know everything changes  
But I don't change inside

I remember where I come from  
Where I've been  
I remember and I know

I can't go back  
There's only now and it's for real, oh

I breathe in, I breathe out  
Through the changes in life  
All around me so different  
But I don't change inside  
I breathe in, I breathe out  
And I always get by  
I know everything changes  
But I don't change inside
