Now I'm here, and I never doubted someday I would be  
I said I'll be there, and I don't care if there's  
No road I'll find my way  
It doesn't matter what it takes  
So go ahead and say what you like  
There ain't no way I'm missing this ride

I feel so high I could fly  
Was born to reach for the sky  
Oh no, I cannot deny this feeling  
And I just hope you can see that there is no holding  
back in me  
I'm already in motion

Go ahead, you can pull me down  
I'll find my way back up  
Cause I'm here to stay  
And I can do whatever I want cause it's my life  
And no matter what you say  
I swear, I don't care  
I'll be here cause I know that I was given to fly

I feel so high I could fly  
Was born to reach for the sky  
Oh no, I cannot deny this feeling  
And I just hope you can see that there is no holding  
back in me  
I'm already in motion

What you think and do I don't mind  
And you can say whatever you like  
I swear, I don't care  
I'll be here cause I know that I was given to fly

I feel so high I could fly  
Was born to reach for the sky  
Oh no, I cannot deny this feeling  
And I just hope you can see that there is no holding  
back in me  
I'm already in motion
