Been wrong about some things in my head
Been wrong about some things I've said
Been wrong about some things I've done
Been wrong about the way I've had fun
But I don't mean wrong about you
No I don't mean I'm wrong about you
No I don't mean I'm wrong to want you

If you blame me for the past
If I say I can't be good
If you want good times to last
Then I know I really could
Love as I would
Love you as I would
I can love you like I should

I can change from old to new
I can stop from feeling bad
If you help me think it through
I will stop from feeling sad
Love you as I feel
Love you as I feel
I can love you as it's real

I was meant to be your man
I was meant to be with you
If I promise as I can
I will always love you true
I will always love you
I know you love me too.
