I looked out of my window yesterday,
Saw the sun and heard the children play
Stood right up and called out loud
Hello brand new, hello brand new day
Hello brand new day

The trees stood still as the wind blew clouds away
Sure is fun to simply feel and see them drift away
I stood right up and called out loud
Hello brand new day
A brand new day today

Chorus
Monday, tuesday, wednesday child
There to greet a brand new day
Thursday, friday, weekend child have packed their
bags
And gone away
I stood right up and called out loud
Another brand new another brand new day
