Thinking about my life
Thinking about my friends
Thinking about our love
Which I hope will never end
Thinking about my feelings
I've been worrying about you
But I know baby I will stay with you
Just me and you just me and you
Just me and you just me and you
I will stay with you
Me by you

The world is often crazy
It spins around so fast
Thoughts fly around the airways
If you miss them they have passed
Thinking what to tell you
And the methods that are new
I know baby I will stay with you
Just me and you just me and you
Just me and you just me and you
I will stay with you
Me by you

Will you stay with me forever
Will you be my love for now
Can I trust you to be faithful
Would you leave me anyhow
Been thinking how to tell
I'll always be your lover true
But I know baby I will stay with you
Just me and you just me and you
Just me and you just me and you
I will stay with you
Me by you
