Verse 1

Of all the places I have been
There is nowhere as wonderful as this
Of all the girls that I've ever seen
Only you can thrill me with your kiss

Chorus

So take my hand now, and we'll alk the sand
And lead me to the promised land
Upon a hill top high, beneath the sun
In the shade of the trees, when day is done

Verse 2

I had no place, to stay that night
It seemed my luck had gone and passed me by
I took a chance the time seemed right
In a lonely bar you caught my eye

We'll find a place, to call our own
A place to share way outside of town
To build a life and to be alone
A country ranch where we can settle down
