I count the seconds passing by
I see a rainbow in the sky
The rain is falling
But the sky is blue
The minutes linger on and on
The times we knew have been and gone
The Birds are singing, calling out your name

Listen to me Darlin
Make a plan for two
The clock is ticking Time Away
Stand up and take the view
I whisper softly in the night
Take my hand and hold it tight
The Time 's arrived
And Here is where we'll stay

What day a see there in your dreams
Life is never what it seems
I call your name from somewhere upon high
The Days and Years where have they gone
Time is only once upon
The Wind is blowing, lifting me in flight

Listen to me Darlin'
Make a plan for two
The clock is ticking Time Away
Stand up and take the view
I whisper softly in the night
Take my hand and hold it tight
This time you're mine
And Here is where we'll stay
