(Ka):

God is silent, only eyes from where I stand  
Sunday's eclipse the monumental scale of man  
Life leaves us parentless in a world I do not love  
There's no causality for what I'm thinking of....

(Guardian Angel):

And I am the face you see within the mirror  
And I am the hand that holds the fist away  
And I am the dream forgotten in the morning  
And I am.....I am.....

(Ba):

We are the faith of your tomorrows  
Let us breathe, let us see, let us be.....  
We are your prayers engulfed in sorrow  
Let us breathe, let us see, let us be.....let us be.....

(Akh):

Oh God I only need to see,  
To share this light,  
To make this hope,  
To make it me.....

(Ka):

Life may leave us, streatched across the soul we  
buried  
Sunday moving slower when the loneliness sets in  
And if our children die, before we reach our own  
demise,  
Then life is blacker still, blacker than the blackest fire.

(Guardian Angel):

And I am the face you see within the mirror  
And I am the hand that holds the fist away  
And I am the dream forgotten in the morning  
And I am.....I am.....

(Ba):

We are the faith of your tomorrows  
Let us breathe, let us see, let us be.....

We are your prayers engulfed in sorrow  
Let us breathe, let us see, let us be.....let us be.....

(Akh):  
Oh God I only need to see,  
To share this light,  
To make this hope,  
To make it me.....

(all):  
Let us breathe, let us see, let us be.....let us be.....
