Watching backwards as life like pictures
Stinging thoughts, born with phantoms
We danced above a world forgotten
Moments cherished...even now
A train-wrecked heart loves fairy tales
Singing from a gaping wound
However time has left unsettled
My memories play out of tune

You can't unmake a cold mistake
You can't undo the hearts you break
You can't erase the poet's fate
Not even if you try

And she had Audry Hepburn's smile
With deeper sadder eyes
The only thing she said
No one hears Cassandra cry
Because the earth is standing still
And the truth becomes a lie
A choice profound is bittersweet
No one hears Cassandra cry

A heartfelt sorrow I believe
Offered this for passion's crime
A crippled satellite trapped in orbit
My memories play out of time

You can't unmake a cold mistake
You can't undo the hearts you break
You can't erase the poet's fate
Not even if you ry...

The listless price of my descension
Where emptiness has pulled me down
Cascading from my divagation
Below the frozen winter skies
Pythonic sadness unreleased
As serpents rigid in cold
Waiting for the warmth of Sunday
Before the cruelty of growing old

Are you listening?
Are you listening?
Are you listening now?
Like Orpheus with hope intangled
Your path was mapped about your feet
Leading backwards into forgiveness
Or forward to a foold retreat
