I think about the days gone by  
And then I sit and wonder why  
You died to sanctify my life  
When I was darkness, You were light  
Jesus Christ!

The world has let me down again  
I am in need of a new friend  
Jesus come and make me whole  
Holy Spirit take control  
Some of my friends around me say,  
"There is no God, there is no way!"  
But Jesus, yeah I know You're true  
You loved me first now I love You

You are the Reason, the only Reason  
You are the Reason, the only Reason for my life

The world rejects Your perfect love  
With clenched up fists they shout above  
Synthetic lies, never the truth  
Distorted theories never proved  
They need to look upon Your word  
No need for drugs, You are the cure  
You cured me from this sickness Death  
I make You Lord above the rest
