(VERSE 1)

I'm in love with Americas most wanted dangerous thug
Wanna call him but my phones bugged
And I'm wondering how long he'll be gone
Really want to see your face
So meet me at a secret place
I got a judge to fix this case
Don't worry you'll be home in a hurry

(CHORUS)

Yo, my man left town on some serious business
(What has he done, what has he done)
The D.A. even said that they got a witness
(Now he's on the run, I don't even know)
It's hurting me so bad I don't think I can deal with it
(Should have used my gun, naw I aint goin' out like that)
Now I gotta be strong cause when he's out we still gon'
be together
(Cause he's the only one, yeah that's my shawty aiight)

Now that he's gone and I'm all alone, Imma hold my
own
Imma hold it down 'till he comes home
Now that he's gone and I'm all alone, Imma hold my
own
Imma hold it down 'till he comes home

(RAP)

I'm'a be here boo
So do what cha doin'
I'll send you some cash through western union
Police been askin', so boo stay true and
I aint tell them nothing, about what you movin'
They ran in the crib, guns drawn, mad glocks
They aint find no cash or a stash box
They found your number on the back of a match box
So they got my phone bugged up, talk about tough love

(CHORUS)

Yo, my man left town on some serious business

(What has he done, oh oh oh what has he done)
The D.A. even said that they got a witness
(Now he's on the run, now he's on the run ah ah ah)
It's hurting me so bad I don't think I can deal with it
(Should have used my gun, shoulda used my gun)
Now I got to be strong cause when he's out we still gon'
be together
(Cause he's the only on, only one only one he's the one
for me

Now that he's gone and I'm all alone, Imma hold my
own
Imma hold it down 'till he comes home
Now that he's gone and I'm all alone, Imma hold my
own
Imma hold it down 'till he comes home

(BRIDGE)

They never gonna catch you baby
? doin' 180
They never gonna slap the cuffs
And lock you up and take you away from me
They never gonna catch you baby
? doin' 180
They never gonna slap the cuffs
And lock you up and take you away from me
(Can't take away my baby)

(CHORUS)

Now that he's gone and I'm all alone, Imma hold my
own
Imma hold it down 'till he comes home
Now that he's gone and I'm all alone, Imma hold my
own
Imma hold it down 'till he comes home
Now that he's gone and I'm all alone, Imma hold my
own
Imma hold it down 'till he comes home
Now that he's gone and I'm all alone, Imma hold my
own
Imma hold it down 'till he comes home

Aye yo all my real women
If you got a good man
Just stick by him, yanno what I'm sayin'
If he in the penitentiary, if he don't got a job
Don't worry, he'll get out, he'll get one soon
It gonna be aight
