Everyday I bicker with the city life  
When midnight creeps I sprinkle holy water on hints  
I scrutinize people tread on city lies  
and they don't even recognize it  
I slip in between the cracks to hollow chase  
A time race  
Embraced by the demons  
Laced up by the government  
Feasted by humans  
Feasted on humans  
Sweat rush fall under the spell  
Someone is bound to tell

I crucify my beauty psyche  
Anticipate the return of heed  
When the doesn't reflect  
and keeps moving in one direction  
there's no room for my tension to ease  
Hesitation cascades  
Into the roots that branch down  
into the earth  
Magnetize look-a-likes  
and unconsciously construct a haunted kingdom  
with perpetual halls  
I pray to god this is only evanescence

I'm riding on a blind unicorn  
I'm riding on a blind unicorn  
I'm going to throw up now

I have my own ways that I stride  
and I'm not going to stride along the lines  
of your fucking guidance  
Fuck the apocalypse stars  
And let me follow my own natural instinct  
Unlinked from your universe  
And your curse  
Immerse my diverse ways of my mind  
You make things worse  
When you babble on about staying positive  
and being good

and keeping sane  
and sleeping right  
and removing my dirty nail polish  
You don't think I fucking know that?

I'm riding on a blind unicorn  
I'm riding on a blind unicorn  
I'm going to throw up now
