Lover,  
You make me want to beg you for more

Your drugs, my thrilling intake  
I take whatever you make  
Please make me feel our love

Touch me under your waves  
Breathing under your waves

Lover,  
You make me want to beg you for more

Soon you'll find me tipping on the edge  
Sometimes I wonder how it feels  
If you made me whole  
Made me safe

Touch me under your waves  
Breathing under your waves  
You come closer to me  
When I push you away  
You come closer to me  
When I push you away

Lover,  
You make me want to beg you for more
